Re: Office action of January 26, 2007 concerning:

-US Utility Patent application 10/814,504

-by Tracy

-filed on March 31, 2004

-for the "Foot Frame"

-confirmation #6464.

Edward F. Landrum:

I enclose:

1) an amended claim section with marked up changes,

Please enter the above amendments to the subject application.

The Rejection of Claims 1-10"under 35 USC § 103(a) as being unpatentable over Oats '513 (U.S, Patent No. 4,926,513) in view of Heppner (U.S. 4,212,217) in further view of Van Wagner (U.S. Patent No. 1,891629) ..." is obviated by entry of the enclosed amended claim section. The amendments add the limitation that the sanitary material be placed in "at least partial contact with the floor". This limitation is not disclosed by any of the art currently of record in this case. Further this feature gives the "foot frame" the advantage of being usable in circumstances where the art of record could not be used: Namely in an application where users are required to walk onto and off of the "foot frame".

Sincerely,

Registered Patent Attorney
